SQUID
Quintuple USB charger

Thanks for choosing our charger.
Please read the whole instruction booklet to ensure the best possible use of your product.
Only use the included cables.
Depending on the charging station, hissing could be heard for a short time at the start of the charging process.
Depending on the charging station, hissing could be heard for a short time at the start of the charging process.

Product specification

You can charge multiple devices at once using the five USB ports.
Most Apple and Android devices like tablets and mobile phones can be charged using the SQUID charger.
Please note that the charging speed can be decreased if your screen is turned on.
We suggest not using your devices while charging it.

Instructions

You can use the included power cable to supply power to the five USB ports by plugging it into the wall socket.
The charger has five USB ports.
You can use multiple ports at once to charge multiple devices like mobile phones or tablets at the same time.
There are two ports with high output (2.4A) and three ports with lower output (1A).
Please note that you can use all five ports at once, but the maximum output is 5A.
