Instructions

There are three different types of plugs inside the travel case:

Use the matching plug, depending on the country you are traveling to.

Plug A can be used as an extension for plug C if needed.

By adjusting the pins plug C can be used for US and AU power sockets.

To store all plugs inside the travel case you need to put plug A in the empty slot of plug B. After this put plug B and plug C into each other so that everything fits inside the travel case.
