Product description

Charging pad (Qi-standard)

Box contents

FLOAT charging pad / USB-cable

Instructions

1. Connect your FLOAT charging pad to a charger with 5V/2A. Charging with a lower amperage will result in a longer charging process.
2. If the LED of the charging pad is red you can put your device on the charging pad.
3. While charging the blue and red LED will light up simultaneously.
4. Occasionally check the battery level of your device.

Please ensure that your device is compatible to the Qi-Standard.

Make sure that you put your device on the FLOAT charging pad correctly.

The color of the LED should change if you put your device on the charging pad.

Caution

- Do not use in damp environment to avoid damage
- The product should be kept away from fire and other high temperature environment to avoid damage and explosions
- Do not try to open or repair the device
- Do not use a chemical detergent, but a dry cloth for cleaning
- Please do not pollute the environment when discarded - try to classify recycling
